Subject: Algonquin Water Services

I do not understand how you could even consider the possibility of allowing one corporation to tap into the aquifer for their own profit while placing the burden of costs on those wells already paid for by residents. They should not be allowed to do so and I am placing the burden of my well going dry on your shoulders. You should be ashamed of yourself. I only hope you are not doing this for personal gain. We shall have higher authorities look into this matter. There already has been an over expansion of building in the valley and allowing such huge development is criminal due to the already lowering aquifer.
